DURAN WHEATON KIMBLE
Excellence in your hands

WE ARE DWK LIFE SCIENCES

YOU KNOW US.

DWK Life Sciences is your global 1 source, end-to-end solution for quality clinical glass and plastic, improving the collection, preparation and diagnosis of patient samples. With you as our primary focus, we leverage our manufacturing expertise and supply chain excellence to ensure you get the right product at the right time...always.

We are pioneers in high quality glass manufacturing dating back over 125 years. Today, you'll recognize the well-known and respected brands we offer: DURAN®, WHEATON® and KIMBLE®. This precision product mix offers the quality choices you need to do your best work. And, as your partner, we are able to match your workflow needs, reduce complexity and bring down costs.

WORKFLOW: Collection ▶ Preparation ▶ Diagnosis

DWK delivers reliability and diagnostic accuracy

Our selection of high quality, always available glass and plastic products meets your protocols and budgets in histology, hematology and microbiology lab applications. What's more, our primary products are manufactured in the USA and have broad global availability.

Whether you need to prepare petri dishes or slant tubes to cultivate and identify bacterial colonies, we have your solution. Tubes used for ABO typing are available that ensure patient safety for transfusion procedures. Additionally, DWK offers a variety of capillary and hematocrit tubes for micro-collection of blood samples. These are just a small sample of our total product portfolio.

Our premium services not only add value, but live up to the same quality standards as our extensive packaging offering. Experience the full suite of DWK Life Sciences services:

- Consigned inventory: goods stored at customer location and paid for as used
- Custom configurations: inventory/run rate matching to workflow, component kitting/ bundled solutions
- Custom glass & plasticware: analytical, process, OEM, storage and product development
- Sterilization: dry heat, autoclave, gamma, E-beam

DURAN®, WHEATON®, KIMBLE®.

Meeting your rigorous requirements and expectations

Hospital and clinical laboratories partnering with DWK gain the advantages of on-demand inventory, result consistency, cost control and the ability to meet unanticipated demand. Our consultative approach will help you translate your unique use-case scenario into the ideal solution to meet and exceed your value targets: performance, safety and life cycle.

Stringent manufacturing control ensures quality across the total DWK product matrix. Through our quality assurance process and relentless attention to deliver outstanding value, we meet your highest expectations.

DWK provides products that deliver the diagnostic accuracy you require while maintaining a premium quality experience.

DWK Life Sciences can meet all of your clinical and healthcare needs

Applications

- Clinical chemistry
- Cryogenic storage
- Hematology
- Histology
- Microbiology
- Specimen collection
- Tissue processing
- Toxicology

Products

- Blood collection tubes
- Blood typing tubes
- Caraway blood collection tubes
- Centrifuge tubes
- Cryogenic vials
- Disposable culture tubes
- Dropper bottles
- Glass vials
- Micro-hematocrit tubes
- Natelson blood collection tubes
- Pellet pestles
- Petri dishes
- Pipettes
- Sedimentation tube racks
- Sample vials
- Serum vials
- Staining dishes
- Tissue grinders
- Tissue vials
- Tube sealing clay
- Westegren ESR tubes
- Wintrobe ESR tubes

Services

- Consigned inventory
- Custom configurations
- Sterilization
- Custom glass & plastic ware
- Critical cleaning services
- Surface treatment
