SCIENTIFIC INC.

Lab Supplies

for the Dairy and Food Processing Industries.

For nearly 30 years, Globe Scientific Inc. has been a leading producer of high-quality laboratory plasticware, glassware and bench-top equipment. Our products are sold worldwide and are used in many industries including Research, Dairy, Food Processing and Testing, Kit Manufacturing, Clinical, Hospital, Veterinary and Specialty markets.

Globe Scientific's headquarters are located in Paramus, New Jersey, near all major NJ and NY trucking routes and shipping ports. We stock over 1700 items available for immediate shipment.

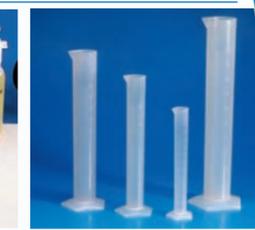

Our innovative ideas and outstanding technical capabilities help to create products that are one step ahead of the industry's needs. Stringent quality control protocols are followed at every step of production ranging from qualitative analysis of raw materials to clinical testing of final products. Through the use of large cavity molds and automation, we have been able to maintain the cost effectiveness of our products which permits us to compete in all markets.

Many of our products can be private labeled, specially packaged and customized to suit your needs. Please inquire about our special services.

We offer a complete line of sterile inoculation loops, spreaders and needles, in a variety of packaging configurations.

Diamond Junior Pipettor — ideal for use in diagnostic kits.
